

StringReplace

```
graph LR; A[StringReplace] --> B[generateIndexWiseRangeAngle MeshVecKernel]; B --> B;
```

The diagram illustrates a process flow. On the left, a grey rectangular box contains the text 'StringReplace'. A straight blue arrow points from this box to a larger white rectangular box on the right. This white box contains two lines of text: 'generateIndexWiseRangeAngle' and 'MeshVecKernel'. A curved blue arrow originates from the top edge of the white box and points back to its top edge, indicating a self-loop or feedback mechanism.

generateIndexWiseRangeAngle  
MeshVecKernel
