

OpenDICOMAndGetDataset

```
graph LR; A[OpenDICOMAndGetDataset] --> B[generateIndexWiseRangeAngle<br/>MeshVecKernel]; B --> B;
```

The diagram illustrates a process flow. It begins with a gray rectangular box on the left containing the text 'OpenDICOMAndGetDataset'. A straight blue arrow points from this box to a white rectangular box on the right. The white box contains two lines of text: 'generateIndexWiseRangeAngle' and 'MeshVecKernel'. A curved blue arrow originates from the top of the white box and points back to the top of the same box, indicating a self-loop or feedback mechanism.
